

INFORMED CONSENT ADDENDUM FOR TELEHEALTH TREATMENT - PLEASE SIGN

Due to the COVID-19 global pandemic, telehealth was implemented to decrease the spread of the virus. Out of convenience, I have continued to offer telehealth as an option for people when they are sick and when they are unable to attend an in person appointment. Psychology Today is the HIPAA compliant telehealth platform I currently use. The link for the site is the same link that works for each appointment. It is important that during these appointments, you are in a private space and, if possible, use headphones to ensure confidentiality.

Please note: California State laws governing Licensed Clinical Social Workers only allow Telehealth services to be conducted when the client is in the State of California.

Definition: California law has long recognized telehealth as a form of delivery of health care and behavioral health services which many psychotherapists are practicing in the state of Ca. and the U.S. In California, "Telehealth" is defined as a method to deliver health care services using information and communication technologies to facilitate the diagnosis, consultation, treatment, and care management while the patient and provider are at two different sites. This form of service is usually live video conferencing through a personal computer with a webcam.

I [name of client], _____ hereby consent to engaging in telehealth with **Laili McGrew, LCSW** as part of my psychotherapy. I understand that "telemedicine or telehealth" includes the practice of health care delivery, diagnosis, consultation, treatment, transfer of medical data, and education using interactive audio, video, or data communications. I understand that telehealth also involves the communication of my medical/mental information, both orally and visually, to health care practitioners located in California.

I understand that I have the following rights with respect to telehealth:

1. I have the right to withhold or withdraw consent at any time without affecting my right to future care or treatment or risking the loss or withdrawal of any benefits to which I would otherwise be entitled.
2. The laws that protect the confidentiality of my medical information also apply to telehealth. As such, I understand that the information disclosed by me during the course of my therapy is generally confidential. However, there are both mandatory and permissive exceptions to confidentiality, including, but not limited to reporting child, elder, and dependent adult abuse; expressed threats of violence towards an ascertainable victim; and where I make my mental or emotional state an issue in a legal proceeding.
3. I understand that there are risks and consequences from telehealth, including, but not limited to, the possibility, despite reasonable efforts on the part of my psychotherapist, that: the transmission of my medical information could be disrupted or distorted by technical failures; the transmission of my medical information could be interrupted by unauthorized persons; and/or the electronic storage of my medical information could be accessed by unauthorized persons. In addition, I understand that if my psychotherapist believes I would be better served by another form of psychotherapeutic services (e.g. face-to-face services), we will discuss it and form a plan together.
4. Finally, I understand that there are potential risks and benefits associated with any form of psychotherapy, and that despite my efforts and the efforts of my psychotherapist, my condition may not improve, and in some cases may even get worse.
5. I understand that I may benefit from telemedicine, but that results cannot be guaranteed or assured.
6. I understand that I have a right to access my medical information and copies of medical records in accordance with California law. I have read and understand the information provided above. I have discussed it with my psychotherapist, and all of my questions have been answered to my satisfaction.
7. I understand that my previously signed informed consent form with Laili McGrew, LCSW still stands and that this is an addendum to that to allow telehealth services.

Initial _____ I have read the above and reviewed it with Laili McGrew, LCSW.

Initial _____ I was given the opportunity to ask questions regarding the above information and engage in discussion regarding those questions.
